Animal Friendship

1st-level | ENCH
Casting Time: 1 action
Range: 30 feet
Components: V, S, M (A morsel of food.)
Duration: 24 hours

This spell lets you convince a beast that you mean it no harm. Choose a beast that you can see within range. It must see and hear you. If the beast's Intelligence is 4 or higher, the spell fails. Otherwise, the beast must succeed on a wisdom saving throw or be charmed by you for the spell's duration. If you or one of your companions harms the target, the spells ends.

Cure Wounds

1st-level | EVO
Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Instantaneous

A creature you touch regains a number of hit points equal to 1d8 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

At Higher Levels:
When you cast this spell using a spell slot of 2nd level or higher, the healing increases by 1d8 for each slot level above 1st.

Lesser Restoration

2nd-level | ABJ
Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Instantaneous

You touch a creature and can end either one disease or one condition afflicting it. The condition can be blinded, deafened, paralyzed, or poisoned.

Silence

2nd-level | ILL | R | ©
Casting Time: 1 action
Range: 120 feet
Components: V, S
Duration: Up to 10 minutes

For the duration, no sound can be created within or pass through a 20-foot-radius sphere centered on a point you choose within range. Any creature or object entirely inside the sphere is immune to thunder damage, and creatures are deafened while entirely inside it.
Casting a spell that includes a verbal component is impossible there.

© Concentration

Water Walk

3rd-level | TRAN | R
Casting Time: 1 action
Range: 30 feet
Components: V, S, M (A piece of cork.)
Duration: 1 hour

This spell grants the ability to move across any liquid surface--such as water, acid, mud, snow, quicksand, or lava--as if it were harmless solid ground (creatures crossing molten lava can still take damage from the heat). Up to ten willing creatures you can see within range gain this ability for the duration.
If you target a creature submerged in a liquid, the spell carries the target to the surface of the liquid at a rate of 60 feet per round.

Wind Wall

3rd-level | EVO | ©
Casting Time: 1 action
Range: 120 feet
Components: V, S, M (A tiny fan and a feather of exotic origin.)
Duration: Up to 1 minute

A wall of strong wind rises from the ground at a point you choose within range. You can make the wall up to 50 feet long, 15 feet high, and 1 foot thick. You can shape the wall in any way you choose so long as it makes one continuous path along the ground. The wall lasts for the duration.
When the wall appears, each creature within its area must make a strength saving throw. A creature takes 3d8 bludgeoning damage on a failed save, or half as much damage on a successful one.
The strong wind keeps fog, smoke, and other gases at bay. Small or smaller flying creatures or objects can't pass through the wall. Loose, lightweight materials brought into the wall fly upward. Arrows, bolts, and other ordinary projectiles launched at targets behind the wall are deflected upward and automatically miss. (Boulders hurled by giants or siege engines, and similar projectiles, are unaffected.) Creatures in gaseous form can't pass through it.
